### IMPROVED MACHINERY.

We had the pleasure of examining a seed drill on Saturday which was imported by Henry W. Naisbitt Esq., of the firm of Naisbitt & Hinsley, for Br. Orriwell Simonds, of Payson. It is the first grain drill that has been brought to the Territory, and if successful in its operation, we think it will be, machines of that kind will enter into general use. This one makes eight furrows; there is a space of eight inches between the furrows, and they can be made shallow or deep, and the grain be drilled thickly or otherwise, to suit the taste of the farmer. A man, with a span of horses, can sow an acre in an hour. These machines have been found to answer a valuable purpose in the East, and there is scarcely room to doubt their success here, as having the grain in drills will be more favorable for irrigation than having it broadcast. During the first year or two of our settlement here, when grain was scarce, and it was an object to obtain as heavy a yield as possible from a given amount of seed, there were some persons who drilled their wheat. The method used was rather primitive, and they had only small patches; but the yield was remarkably large, and so far as we knew at the time, the experiment was successful, the only drawback being that it was too slow a process to admit of large fields being seeded in that manner. But this machine makes the work of drilling very easy.

By the completion of the railroad we are going to be brought into competition with our neighbors east and west in all branches of production and manufacture. In view of this our mechanics must arrange matters in such a manner that they can command the trade of the Territory. If their methods of labor and manufacturing are slow and expensive, they must avail themselves of machinery, and the various aids which men in their branches of business use in the east and west; for if they do not produce as good an article, at as low a price, as it can be brought here for from other places, they will be likely to find the market stocked from abroad and their wares will go a begging. We have men among us, though they are not numerous, who, if they can make twenty-five cents by bringing an article from abroad, do not hesitate to send for it in preference to purchasing a home-manufactured article of the same quality. To control this market, therefore, those who manufacture and produce, must do so at rates so favorable that nothing in their line produced or manufactured elsewhere can find sale here except at a loss. The tariff on freight brought from the eastern west answers as good a purpose as a protective duty, and we will be highly culpable if we do not take the necessary steps to supply ourselves from our own productions and manufactures to the extent of our power.

Not only must the mechanic and manufacturer do this, but the farmer also. It was only this morning that a farmer friend, whose extensive proportions were encased in a fine suit of clothes, asked us to guess how many oats he had paid for the suit. We tried, but guessed several oats too many. He had only paid six bushels for the clothes, and then had nearly a dollar over, and the merchant with whom he traded told him that oats were not so high by six bits a bushel as they had been! These high prices do well for the present, and we are glad to see the farmers sell their products so advantageously; but every thinking man among them is convinced that if good crops are raised East and West, these prices can not continue, for grain can be brought by the railroad and laid down here at lower figures. Our farming must be done more systematically than it has been, and every improved machine that will facilitate the cultivation of the soil, and lessen the cost of producing grain, must be brought here by the first train, that the blessing of the Lord, coupled with other sections in the production of fruits, vegetables and grain. Our soil yields well to the careful husbandman. In this Territory mother earth has been a beneficent parent to us. She has yielded of her bounty, which in many places have not failed to draw heavily upon her. But now greater pains should be taken to restore to her those elements of which in many places she begins to feel the lack. Our farmers must take greater care in manuring, and summer fallowing that they have been in the habit of doing, and thus preserve the fecundity of our soil.

---

[Special to the Deseret Evening News.]

## By Telegraph.

The credentials of Eugene Casserly were presented [illegible]

The bill regulating certain private land claims in New Mexico, was passed.

A discussion arose which lasted till the expiration of the morning hour, upon the propriety of having American registers to vessels which put themselves under foreign protection during the war. No conclusion was reached.

The Tenure of Office act was then taken up.

The evening session on Tuesday, is set apart for the consideration of business from the committee of commerce; Wednesday evening is appointed to consider business from the military committee.

Conkling said the Tenure of Office law was enacted to meet attempts made in the interest of slavery and treason, to traffic in officers and to employ the purse of the nation to enrich the nation's foes. These exigencies had now passed, however, and he desired to dispense with such a portion of the law as was needless.

A discussion ensued between Conklin and Morton, after which Doolittle addressed the Senate in favor of the repeal of the law. Dixon also advocated its repeal. He agreed with the Democrats of Connecticut in an idea expressed in a resolution of the recent convention, declaring that they would not wage indiscriminate war against the administration of General Grant.

Howe opposed the repeal, his argument being, that the law should be repealed, not because Grant could be trusted, but because he regarded it as an opportune time to remedy a great mistake of the first Congress. Sawyer also spoke against repeal. He thought a repeal law on the eve of a new administration would be like falling before the rising sun. Morton was to address the Senate, but gave way to the motion to adjourn.

Shenck reported a joint resolution to postpone the time for the first meeting of the forty-first Congress from noon to three o'clock on March fourth; passed.

A motion from Boutwell, under the suspension of the rules of the Senate amendment to the joint resolution, proposing an amendment to the Constitution, was taken up. Woodward desired to offer an amendment requiring the amendment to be submitted to the Legislatures elected hereafter.

Boutwell declined to allow the amendment to be offered.

Bingham desired to offer an amendment heretofore agreed to by the Senate as follows: The right of citizens of the United States to vote and hold office, shall not be denied or abridged by any State on account of race or color, nativity, property, creed or previous condition of servitude.

Boutwell at first refused to allow any amendments to be offered, but finally consented to permit the above. Shellaberger offered an amendment, giving all male citizens the right to vote, except those engaged in insurrection or rebellion. Logan offered an amendment to strike out of the Senate resolution the words "or hold office." Several members debated the question briefly. Boutwell moved that the evening session be dispensed with, and the House proceeded immediately to vote on the pending amendment.

Knott moved to adjourn; lost.

Logan's amendment rejected 71 to 94. Bingham's amendment agreed to, 82 to 70. Shellaberger's amendment withdrawn.

Senate resolutions as amended by Bingham, passed, 140 to 34.

Adjourned.

---

### GENERAL.

Washington 21.—A patent was issued yesterday to James F Joy, for 113,478 acres of the Cherokee neutral lands, being the largest land patent ever issued except to Railroads.

Nashville.—The body of detective Baunbe, who was taken from a railroad train about a month ago by masked men, was found in a creek near Columbia yesterday, with a rope around the neck, the hands were tied behind; and a valuable diamond ring remained on the finger.

Governor Brownlow has issued a proclamation declaring martial law in the counties of Overton, Jackson, Maury, Giles, Lawrence, Gibson, Madison and Haywood, and ordering General Cooper to send the militia to those counties. The proceeding causes much uneasiness.

New York.—A joint mass meeting of the German Republicans and Democrats was held this afternoon; they adopted a memorial protesting against the passage of the proposition before Congress, giving the United States Courts exclusive power to grant naturalization certificates.

Washington's birthday will be celebrated by a public procession, and will be observed generally as a holiday.

The track of the Central Pacific is again clear through the deepest snow of the Sierra.

Since there is no probability of the defeat of the bill before Congress, granting a trading monopoly in Alaska, several trading and hunting expeditions are fitting out in this city.

Advices from Arizona, to the 30th ult., report favorably of the mines, and mention no fresh Indian troubles.

The Senate of Nevada has rescinded and killed the resolution asking the annexation of the Snake River country. Political reasons are said to be at the bottom of this action.

Legal tender, 75¢.

New York, 20.—Washington's birthday will be observed as a holiday; no Associated Press dispatches will be sent on Monday.

Hatfrisburg.—The Governor has respited General Eaton, who was sentenced to be hung on the twenty-fifth.

Washington.—The Secretary of the Treasury has instructed the Solicitor that the Department will take the necessary steps to secure the enforcement of the twelfth section of the act of 1838, against pilots of steamers of the United States of America, by whose commission, on this river, many lives have been lost. The law provides the penalty of manslaughter against officers of steamers where life is destroyed through their negligence.

The President sent a message to the House to day, informing them of the release of Warren and Costello.

The bill, removing from office persons in Virginia, Texas, and Mississippi, who are unable to take the oath of office, has become a law, the President having held it ten days.

Cincinnati.—Charles Keny, who robbed the safe of Casaberling & Pyne, of Wall street on the 1st of January, was arrested here yesterday and taken to New York. Sixty thousand dollars of the stolen bonds were recovered.

Washington.—A special says that the Senate finance committee has postponed the bank bill for the present. In the House, twenty absentees from last night's session were brought before the bar of the House.

New York.—One of the Oriental Powder Company's mills, at Goshen, Me., exploded this morning.

Philadelphia.—It is reported that the cashier of the fourth national bank, who is a defaulter in over one hundred thousand, has made his escape.

Chicago.—The Illinois House of Representatives has passed a bill to restore capital punishment, which was virtually abolished last legislature.

New York.—The President has pardoned John H. Eagan and Nicholas Henry connected with defrauding the Government with false bounty money.

The sensation story that young Jeffards was murdered by Dr. Bardell is completely disproved by his counsel.

New Orleans.—Prominent Cuban refugees have addressed a protest to the Government against the charges of the Spanish Consul, and say that political opinions would not be infringed upon in any manner.

---

### FOREIGN.

Havana 21.—Governor Dulce has issued another proclamation, offering forgiveness to all those leaving the cause of the insurgents excepting the leaders.

The steamer *Mississippi* from Rio Janeiro the 26th, has arrived. The war was considered ended. It was believed that Lopez had gone to Bolivia, or on board an American man-of-war. Asauncion was occupied by the allies.

The *Herald's* Cuba special says the steamer *Louisiana* is expected from Mexico with four millions of dollars. Senator Henderson left for the United States to-day. An American, named Dudley, who attempted to leave without a passport was detained by the authorities.

The *Diaro* says the insurgent chiefs in the jurisdiction of Colon have surrendered. Advices from Trindad report several encounters in that vicinity, in which Col. Schmidt, leading the insurgent forces, was wounded; and six Mexicans and three others were killed. The forces defending Puerto Principe number three thousand. The *Preusa* says the insurgents have been totally defeated near Villa Clara, and it considers the insurrection ended in that part of the island.

Paris.—A Frigate has been ordered to Cuba to protect the interests of French citizens.

Madrid.—The iron clad *Victoria* is under orders to sail to Havana.

By a recent decree of the Colonial Minister all restrictions have been removed from the office of Commercial broker in Cuba and Porto Rico.

Trieste.—A terrible disaster occurred yesterday on the frigate *Radetsky*, cruising in the Adriatic, being an explosion of the magazine, completely wrecking the ship and causing great loss of life; most of the officers and crew were instantly killed or blown into the water and drowned.

Paris.—The recent order of Cado, Minister of the Interior, against the abuse of the right by the people of peaceable assembling, was put in force yesterday. A public meeting contemplated at Mt. Parnasse was dispersed by the authorities. All public meetings on Wednesday next, the twenty-first anniversary, and the second inauguration of republican government, are positively prohibited.

Dix publishes a card denying that he recently made a speech sympathizing with Greece on the matters at issue with Turkey, and affirms that his policy has been that of America non-interference in politics.

New York.—City of Mexico advices to the 13th, say that Negreto captured Pueblo on the 3rd, but evacuated the city on the 6th, on the approach of the government troops.

The revolutionists, under San Marden, have forced a loan of one hundred thousand dollars from the merchants

A revolution is expected in Guadalajara; the Governor has resigned and the courts have declared their inability to administer justice.

A revolution has broken out in Hascala and Neuva under Don Quinta, with 1,200 armed men, who has pronounced in favor of Santa Anna.]

It is reported that Corona will be appointed Minister to Washington.

Paris.—The *Gaulois* says that Montpensier has been permitted to return to Spain as a private citizen.

Havana.—The Government has received information of the surrender of one hundred revolutionists near Colon, and of the death of the leader of the guerrillas, formerly a district attorney. The revolution at Colon and Jiguiani Grande is considered ended.

Information that the rebels were surrounded in the Cavojo mountains is fully confirmed.

The authorities seized an insurrectionary proclamation, calling upon the negroes to rise in rebellion, and have arrested the authors thereof.

They have also taken steps to watch the Peruvian monitors at Key West. Some Cubans think that the monitors were intended to attack Havana.

Mexican advices report that Doctor Skelton, of the New York *Herald*, had an award granted him which is thought to be worth a million dollars.

Porfirio Diaz has been appointed Governor of the new State of Morelos.

### NATURAL ANTI-MIASMATICS.

A recent number of the *Prairie Farmer* contains a very readable editorial upon the influence of vegetation, at least of certain kinds of vegetation, in preventing such miasmatic diseases as fever and ague, etc. It calls attention to the well-known fact that in many of the most miasmatic portions of the Southern States the negroes guard their cabins with sunflowers, "to keep off the fevers," which their white owners consider an idle superstition, and not a sanitary precaution. Investigations seem to prove that the negroes are right. Within the last few years miasmatic fevers have become so prevalent in certain portions of Belgium that the Government was compelled to take the matter in hand, and appoint Medical Boards to try and devise a remedy. There has been one complete success. A remarkably unhealthy estate was selected, and a large quantity of sunflower seed planted around the cottages and buildings. As the plants grew fevers disappeared, and in a short time there was not a vestige of that class of diseases left. Here was an effect, but what was the cause? Analysis and other experiments followed, and the facts were disclosed, first, That the sunflower draws almost all its sustenance from the air, making a very slight demand on the soil; second, that its main food, at least the main component of its leaves and pith of its stalk was nitrogen. The mystery was explained, and "the superstition of the American niggers" was found to be no superstition at all, but a plain, practical, easy and cheap method of keeping the fever miasmas from their cabins—the affinity of the sunflower for nitrogen drawing it to itself and keeping the air pure.—*Ex.*

HOLINESS TO THE LORD.

ZION'S

CO-OPERATIVE MERCANTILE

INSTITUTION.

THE Inhabitants of the Territory of Utah are hereby notified that measures have been adopted to commence a WHOLESALE CO-OPERATIVE STORE without delay.

We trust that

WITHIN TEN OR TWELVE DAYS THE WHOLESALE STORE WILL BE IN OPERATION.

It is designed to conduct the business on safe and economical principles, and to sell goods at wholesale at as small an advance on cost and transportation as will barely pay expenses, and leave a small margin for interest, or dividends, in favor of the stockholders.

Due notice will be given when and where the Wholesale Store will be ready to accommodate purchasers.

Those who have subscribed for shares of Stock in the Institution, are hereby notified that their subscription money is now needed to aid in commencing the business, and the sooner all subscriptions are paid in, the better for all concerned. There is also opportunity for others to take shares and thus join in this Self-preserving institution.

Country Merchants are requested to pause before making purchases elsewhere, and especially not to risk sending East for goods until they have first ascertained what they can do at the Wholesale Co-operative Store

By Order of the Board of Directors,

Wm. CLAYTON,
Secretary

d76 w3 tf

## NEW STORE.

BOOTS AND SHOES.

Ladies', Misses' and Children's Balmorals and Congress Gaiters, of all kinds,

AT REASONABLE RATES,

BY WM. BARTH & BRO.,

d68 1m 2nd South Street.

DESERET EVENING NEWS.

Monday, February 15, 1869.

## LOCAL AND OTHER MATTERS.

THEATRICAL.—The fine sensational play of "Janet Pride" was presented on Saturday night; all the characters were well up in their parts. It was played well.

The old favorite play of "Ingomar" will be presented this evening when Miss Lockhart will appear as Parthenia and Mr. M. Hardy as Ingomar.

ST. JOSEPH.—Brother Elijah Elmer writing on the 4th inst. from St. Joseph, Arizona, says: "All are well at this time. We are busy with our canal; we purpose making it ten feet wide at the top. In consequence of a number of deep cuts that must be filled, unless we receive help we will not be able to complete it this season."

SABBATH MEETINGS.—Elder C. W. Penrose occupied the time in the morning; in the afternoon Elder Joseph F. Smith delivered a very eloquent discourse upon the first principles of the gospel.

POLICE.—Jackson, Jesse Orme and Edward Carloss were fined respectively $7,50, $15, and $10 for being drunk and endangering the peace.

STATE LEGISLATURE.—The Legislature of the State of Deseret assembled this morning in the City Hall. They afterwards met in joint session. The annual message was delivered orally by His Excellency, Governor Young.

A vote was passed that 2000 copies of the message should be printed in pamphlet form.

George Q. Cannon was elected public printer.

The joint session then dissolved. After transacting the usual business the Legislature adjourned.

BENEFIT.—To-morrow night the popular comedian, Mr. John C. Graham, will take a benefit at the Theatre. The pieces selected for the occasion are the beautiful play of "The World and the Stage," and the comedietta "A Handsome Husband." This is a splendid bill, and on an ordinary occasion should draw immensely. They present an excellent opportunity for the display of the histrionic powers of Miss Lockhart, Mr. Graham and the best talent of the entire company. Miss Lockhart and Mr. Graham will appear in both pieces. We hope the public will manifest, with a good house, their appreciation of the benificiare's talents, and exertions to please and amuse. He has labored long and faithfully, and is rapidly rising to excellence in his profession and is well deserving of a substantial mark of public appreciation.

### LEGISLATIVE.

Feb. 13; 7 p.m.

House—[illegible] present.

The report of the Adjutant General of the Nauvoo [illegible] road and ordered printed.

The [illegible] ordered inserted in the appropriation bill for the Adjutant General's office.

Mr. Rich presented "An act relating to fugitives from justice;" read and referred.

The Council announced their passage of the [illegible] bill entitled "An act providing for the incorporation of [illegible] companies and the management of the affairs thereof, with amendments; in which the House concurred.

The House announced their non-concurrence in the House amendments to the act to amend an act prescribing the manner of assessing and collecting Territorial and county rates.

The act dividing the Territory into road districts was returned by the Council amended. The title was amended to read: "An act for the protection of the public thoroughfares."

The committee on the Library were instructed to bring in a bill, further defining the duties of [illegible].

The bill for an act to amend an act regulating the mode of procedure in criminal cases was reported back and passed.

House adjourned till to-morrow at ten a. m.

Feb. 14.

House met at ten a.m.

Mr. Midgley presented a petition of Wm. Price and [illegible] others, citizens of Utah and Jane [illegible], asking for an appropriation for road purposes; read and referred.

Mr. Rockwood reported that Nichols and Godbe had paid their per centage to the school fund on amount collected on their toll bridge across Bear River, in Box Elder county, and on the bridge across the Malad, and submitted vouchers; also that the Weber Railroad Company had not complied with the terms of their charter in relation to the School Fund, nor in relation to making a report to the Assembly. The report of the committee was adopted.

The Council and House met in joint session.

The committee on the Library brought in a bill, defining further the duties of Librarian, &c., which was passed.

The committee on Judiciary reported back a substitute bill, entitled an act to amend an act in relation to interest, approved Feb. 14th, 1868, and recommended the passage of the same.

Sa[illegible]

Re[illegible]

Ho[illegible]

The C[illegible] did not recede [illegible] the mode of proceeding in civil cases in the Courts of the Territory of Utah. The House concurred with the Council in [illegible] thereto.

A bill amending the act apportioning the representation of Utah, was read and referred to the committee on unfinished business.

The Council announced their non-concurrence to the bill in relation to interest on money, and forwarded a substitute bill in which the House concurred.

The Council announced that they had passed an act enlarging the boundaries of Kane county, and [illegible] the County seat thereof. Said bill [illegible] by the House.

The bill entitled "An act relating to fugitives from justice" was taken up and referred to the committee on Unfinished business.

The Council announced their concurrence in repealing the charter granted to H. S. Alexander authorizing him to collect tolls on bridges across Weber river, and their concurrence in the act providing for the printing and distribution of the Laws and Journals of the Legislative Assembly; and, with amendment, their concurrence in the act further defining the duties of the Superintendent of the Salt Lake City and Wanship wagon road.

The House took up the latter bill and non-concurred with the amendment of the Council thereto, and appointed Messrs. John Taylor and A. P. Rockwood a committee of conference on the subject.

Recess until 7 p.m.

7 p.m.

House met.

The committee on Revision reported that forty days were insufficient taking into consideration the other duties of the session, for a committee to get up a set of forms; but recommended the appointment of a Commission to do so at an early day.

On motion of Mr. Rockwood said report was laid over as part of the unfinished business of this session.

Mr. Wright introduced a resolution complimentary to Hon. Orson Pratt, Speaker, for the able, dignified and impartial manner in which he had presided over the House; and to the other officers for the satisfactory manner in which they had fulfilled the duties assigned them; unanimously adopted.

The acting Governor announced his approval of the following acts:

"An act further defining the duties of the Librarian, &c."

"An act to provide for the printing and distributing the laws of the 16th, 17th and 18th annual sessions, &c."

The Council announced the appointment of Councillors L. Snow and W. Woodruff, a committee of conference on the bill further defining the duties of Superintendent of the Salt Lake City and Wanship wagon road. Said committee agreed on a substitute section to said bill, which was finally adopted by both branches.

The acting Governor announced his approval of

"An act for the protection of public thoroughfares."

"An act supplementary to the act regulating the mode of procedure in civil cases in the courts of the Territory of Utah; and his non-approval of the act repealing Henry S. Alexander's charter, establishing toll bridges across Weber river, and assigned his reasons therefor.

The Council announced their approval of "Territorial appropriation bill," with amendments. Said amendments were concurred in by the House and the bill passed.

A bill amending H. S. Alexander's charter was passed.

The Council announced the passage of a bill amending H. S. Alexander's charter.

The acting Governor announced his non-approval of

"An act of general incorporation for pecuniary profit."

A message was received from the Council announcing that their table was clear of business.

The acting Governor announced his approval of the following bills:

"An act further defining the duties of the Superintendent of the Salt Lake City and Wanship wagon road;"

"An act providing for the incorporation of Railroad companies and the management of the affairs thereof,"

"An act amending H. S. Aldxander's charter," and the

"Territorial appropriation bill."

The Council were informed that the table of the House was clear of business.

A committee was appointed to wait upon the acting Governor and see if he had any further communication to make.

Said committee announced that his Excellency had no further communication to make to the Assembly, whereupon,

The House dissolved.

Benediction by Mr. Young.

## Died:

In this City, 19th instant of relapse, while recovering from the scarlet fever, Emily, daughter of Thomas and Elizabeth Day, late from Luton, Bedfordshire, England, aged 11 years. *Mill. Star*, please copy.

In this City, Feb. 21, of scarlet fever, Ella P., daughter of George and Elizabeth W. Monsley, aged 5 years, 5 months and 5 days.

The funeral service will take place to-morrow at 2 o'clock p.m., at the residence of her mother, 16th Ward, at which time friends are invited to attend.

DESERET EVENING NEWS.

Monday, February 22, 1869.

## [illegible]

BY LOUIS A. BERTRAND.

XI.

Now we will go back and attend to those little fellows that were left on the papers containing the eggs and placed upon other papers, and attend to their wants. Their first and almost only want is food. There is one thing, however, of almost as much importance to their healthy existence that they *do not* want, and that is, they do not want to be too crowded or thick together. For the first few days they require to be fed on the most tender leaves, which should be given to them directly from the tree, perfectly fresh and only a few at a time, removing them as often as those last given them are consumed. As the worms grow older and stronger, give them older and stronger leaves. But this rule should always be most faithfully adhered to: *Feed them but a few at a time, renewing them as often as those last given them are consumed.* If this rule be strictly followed, you will never have withered or dried leaves, but always fresh ones, before the worms. There is but one exception to this rule of fresh leaves, and that occurs on the days of moulting, when, as before remarked, they should have none. There is no absolute invariable rule as to the exact age when the several moultings occur, for the reason that the life of the worm, from the day of hatching to the spinning of cocoons, depends in a great degree on the favorableness and uniformity of the weather, the frequency and regularity of feeding with fresh food and the quiet allowed them while moulting. The different varieties of worms also vary as to the period of their whole lives, as well as to the time between each moulting. As a general rule, however, under favorable circumstances the several moultings will occur as follows: The first moulting when about five days old; the 2d when nine days old; the third when fifteen days old; the fourth when twenty-two days old. Whenever the worm is about to commence moulting, he leaves off eating, attaches himself rigidly to the most handy thing he finds and stretches up his head as if in pain. The forepart of his body increases and the latter part decreases in size, and the whole body assumes a glossy appearance. Thus he continues to swell up about the head until the old skin bursts and slips back towards his tail. He then crawls out of the old skin a changed being, looking shriveled and gaunt and hungry, and at once begins to look for his food.

When care has been taken to keep the worms of the same age only, together, and they have been fed carefully and uniformly, all the worms on the same paper, or on the papers of the first day's hatching, will go through these several moultings at the same time. And so of the second and third day's hatching. Thus, when one worm wants to be quiet, and absolutely requires it, so does every other one on the same paper, and consequently all are gratified, no one crawling over or disturbing the other. Experience teaches that upon a proper separation of the several day's hatching depends, as much as upon any other thing, the success of a feeding and consequent success of a crop of silk.

Next to proper care in feeding often and on fresh food, and keeping the worms of the same age together, it is important, as intimated above, that they should be properly thinned and spread out over greater surface as they grow larger. They should have room, so as not to be required to lie one upon the other too much. This is necessary for convenience in getting at their food, and is very essential to the healthful growth and maturity of the worm. Besides the exercise of judgment, assisted by the appearance of the worms themselves, it may be well to be guided in thinning them out by the rules laid down in this chapter as to the space required for five hundred thousand worms in the several ages. To make this subject familiar, I will here state the space required for that number of worms, in connection with the amount of food they will require for consumption during each of the several ages.

Five hundred thousand worms for the first age should be allowed one hundred square feet of surface, and it is estimated that during this age, or the first five days of their existence, they will consume one hundred and twenty-five pounds of leaves. During the second age, or the next four days of their lives, they should occupy about two hundred square feet of surface, and will consume three hundred and seventy pounds of leaves. During the third age—from nine to fifteen days old—they should occupy about four hundred and fifty feet of surface, and will consume eleven hundred and fifty pounds of leaves. During the fourth age—from fifteen to twenty-two days old—they should occupy one thousand and one hundred feet of surface, and will consume three thousand four hundred and seventy-five pounds of leaves. During the fifth and last age—from twenty-two to thirty-two days old—the age of going to spinning—they should occupy two thousand five hundred square feet of surface and will consume nineteen thousand eight hundred and seventy-five pounds, or about two thousand pounds or one ton per day, making in all about twenty-five thousand pounds, or twelve and one-half tons of leaves.

It will be seen by the above statement that while the worms occupy but little space and eat but little during the first half of their lives, they spread out rapidly and eat voraciously during the last half; consequently, while the work of feeding and attending to them is light during the first three ages, or first half of their existence, it becomes very considerable during the last two ages. These considerations have led, of late years, in most countries where to economize labor is desirable, to the adoption of what Mr. Louis Prevost styles the California mode of feeding. After the first two moultings, when the worms begin to move about pretty easily, instead of picking the leaves one by one from the tree and feeding them to the worms on a flat surface, you take your pruning shears and horse and wagon and go into your plantations, which are cultivated in dwarf form. Beginning at one end of the field and clipping off the straight shoots from each tree as you follow the rows back and forth, throw them by the armful into the wagon till you have gathered the required quantity for one feeding, and drive to the cocoonery. Taking an armful of these branches, you lay down four in the form of a square on each paper containing worms. The worms gather along the branches and devour the leaves from them. The next feeding, you proceed in the same way, laying the branch each succeeding feeding on those before laid on; thus you build up a little square pen for each collection of worms all through your cocoonery. The worms work up from the stripped to the fresh branches, and in this way they are raised from the flat surface, where they are necessarily in contact with their own offal and filth, up into the air above it. This mode of feeding has many advantages, both in the manner of cultivating the mulberry tree in plantations as dwarfs, to which it has led, and in the feeding of the worms. First: because you can gather the food much easier and faster; second, you can produce much more to the acre than by the old orchard style of standard trees; and third: leaves thus grown, on trees pruned back are more vigorous and contain more of the resinous substance from which the silk vessels of the worm are filled. The advantages of this mode, as to feeding, may be stated as follows:

*First.* The greater facility of handling a quantity of food.

*Second.* The greater length of time the leaves thus adhering to the branches will remain fresh.

*Third.* It gives the worms a freer circulation of air, keeps them clean, and consequently more healthy and vigorous.

Many beginners believe that the above mode of feeding is a modern invention. To correct that false notion, I will state here that it has been practiced by Japanese breeders from time immemorial.

# GOVERNOR'S MESSAGE

The following is the Message of Governor BRIGHAM YOUNG, delivered orally on Monday, February 22d, 1869, to the Senate and House of Representatives of the State of Deseret, convened in General Assembly, at the City Hall, Salt Lake City.

REPORTED BY DAVID W. EVANS.

GENTLEMEN:—Another year, with all its varied joys and sorrows, has passed away, and we have assembled together in this chamber in our Legislative capacity, in conformity with the requirements of the Constitution of the State of Deseret. Since I last addressed you in this capacity, we have been called to mourn over the departure from this life of our Lieutenant-Governor, Hon. Heber Chase Kimball, who, after a brief illness, died on Monday, the 22d of June, 1868. The purity of his life, his unflinching integrity, and the steadfastness and valor which he unvaryingly displayed, made him the object of love and veneration to the whole people. When he left us, all felt that we had lost a tried friend, a wise and faithful counselor and a true patriot, and yet, though it is a matter of regret, we can rejoice in the knowledge that he rests in peace.

Notwithstanding the ravages of the insects, the past season has been one of [illegible] and in coming together to-day we can congratulate each other on our flourishing and happy condition and the kind providences of our Father and God which are dealt out to us. We have met in the capacity of a State Legislature with a view to preserve our organization, and with an eye to the time when, by the wisdom of God, He will move upon the minds of Senators and Members of Congress to give us our legal, national and legitimate rights. We wait with patience for this to be done. Perhaps to some it will seem unnecessary to keep up this organization: but it is that we may preserve our identity as a part of the nation, that we assemble annually in this capacity. If the machinery is kept in order, when the time shall come for the water to be turned upon it there will be no difficulty about starting it. It is not so much to enact laws and to sit in a Legislative capacity that we now meet, as to recognize our rights; and, in doing so, we do no more than others have done, and no more than is our right to do. If we, who live in this country, were disposed to meet in this capacity 365 days in the year, it would concern nobody but ourselves, except meddlers and those who wish to infringe upon the rights of their neighbors. In a republican government like ours it is our right to meet as we do today. We have the undoubted right of meeting together and consulting upon those points of governmental affairs that pertain to our future peace, and to gather the necessary information to enable us to proceed further in the duties of life. Whether, in the providences of God, we shall be admitted as a State or not we leave with Him. He will do as He pleases; the hearts of all living are in His hands, and whatever condition He permits us to live in we shall accept and conform to.

I may with propriety venture the assertion that the heart of every person now present renders praise to God for the blessings we enjoy this morning. We trust in Him. We are His servants; we are His friends; we are also the friends of humanity. However much we may be misunderstood and misrepresented, this knowledge gives us satisfaction and comfort.

Our experience has demonstrated the simple fact that, in enacting laws, the fewer they are, when well executed, the better for the people. This is a fault which our Legislators have not fallen into; they have not made a multitude of laws. Multiplying laws would not add to our peace or union. If we did not know how to govern and control ourselves and those around us, legislative enactments would be but a flimsy shield to us; they would be a broken reed to lean upon. In this connection I recommend that you adopt and sanction the laws which have been enacted by the Legislative Assembly of the Territory of Utah, that the same may be valid and have full force in the State of Deseret. And I further desire, that you continue to apply your hearts to wisdom; all wisdom pertaining to the things of this world, pertaining to the laws of our Territory and nation, and the nations of the world, and that we all seek for wisdom from Almighty God to enable us to dispense our knowledge to the advantage of [illegible] individuals and as a community, and of the world. We should [illegible] until we are able to wield the [illegible] of the enemies of God and truth every good principle and all that is desirable for man's elevation and happiness, and preserve them intact.

That we have shown our capacity for self-government, and are fully entitled to an entrance into the great sisterhood of States which forms this Union, is evident to all unprejudiced people who are familiar with our history. It is a over little twenty-one years since we broke our way into these mountains, having traveled some thirteen or fourteen hundred miles from what is called "civilization" and from supplies. In the short time we have been here it can be said with truth of us that we have advanced faster in establishing true civilization, in making public and private improvements, and in adding to the national wealth than any other people, surrounded by the same circumstances, of whom we have any knowledge. This progress is, in the eyes of every patriot, commendable and praiseworthy.

Gentlemen in coming together to-day as the *Representatives* of the State of Deseret you have the proud satisfaction of knowing that we represent a people capable in every respect of governing and controling themselves. We, in this country, have achieved a freedom and independence such as are rarely possessed by any people in these days. We [illegible] income from taxation is appropriated for the benefit of the people. We have no bonds in market for greedy financiers to speculate in, to prove a cause of embarrassment to ourselves, or a vexation and annoyance to our children. Our legislators have been wise enough not to go beyond their ability and burden the people with a heavy indebtedness, without having resources to refund the same. Should we be admitted as a State I look for the same policy to be pursued; we shall not fail to debt; but always live within our means.

This is the secret of success with men, communities and nations. Take men in any capacity whatever, whether singly or otherwise, and you will find that if they live within their means, they will be independent and powerful. It is so in the case of a single individual, and it is increasedly so with a community or nation. We, as a people, have had wisdom enough to perceive and act upon this. A people or government that will suffer itself to get entangled through avarice or other causes, and bring upon its people war and indebtedness, and then poverty and distress, proves that it is not capable of exercising the proper rights of government. But a nation that can maintain peace within its borders, and with its neighbors, exhibits knowledge, wisdom and power that must eventually call forth the respect and admiration of the world. Thus far we have been able to preserve ourselves from such contingencies. It is true that war has been made upon us; but the sword of indignation has fallen harmless at our feet. Yet our own wisdom did not produce this; it was by the wisdom and power of God, which He imparts unto those who live so as to receive them that they may preserve themselves.

It is not my design to detain the Assembly. There is a little business necessary to be transacted. When this is attended to there will be no further necessity to remain in session. The members have been a long time here in the capacity of the Legislative Assembly of the Territory of Utah, and to persons accustomed to active and out-door business, such confinement becomes irksome.

When you return to your constituents, Gentlemen, you can carry with you the proud consciousness of having striven with harmony and unison, during your legislative labors, to enhance the interests of our beloved country and to maintain those free institutions and that peace, with which, under Divine Providence, we have been so long and kindly favored.

That the blessings of Heaven may rest down upon you, your constituents and the land our God has given us, is the constant wish of

BRIGHAM YOUNG.

(Special to the *Deseret Evening News*)

## By Telegraph.

### CONGRESSIONAL.

SENATE.

The Constitutional Amendment was taken up. Stewart moved to disagree with the House Amendment and to ask for a committee of conference. Davis moved to postpone the matter, and take up the bill to repeal the Tenure of Office act; lost 14 to 26. Stewart's motion prevailed 32 to 23.

The bill to supply the deficiencies for filling certain Indian treaty stipulations was passed.

The bill authorizing the Western Union Telegraph Company to import a cable free of duty was passed.

A bill to amend the judicial system was taken up, and after some discussion was passed as reported from the Committee.

Wilson, from the Military Committee, reported a bill for continuing the Educational and Collection Departments of the Freedmen's Bureau and certain Freedmen's hospitals; also a bill to repeal an act fixing the head-quarters of the General of the army at Washington, and requiring all military orders of the President to be issued through him, etc.

Patterson, from the committee on foreign relations, reported favorably to a resolution declaring that the neutrality laws shall not be held to forbid the sale or chartering of vessels to foreign Governments at peace with the United States, although such vessels be prepared for war, provided that such sale be a *bona fide* commercial transaction, with no intent on the part of the seller to participate in any belligerent act.

Morrill, from the Committee on Appropriations, reported the Army Appropriation Bill, with amendments.

Trumbull moved to take up a bill to punish the holding of office in violation of the 14th article of the Constitution. After considerable discussion the bill was postponed.

A bill to amend the Civil Rights' Act was passed.

A bill relative to the Supreme Court in the District of Columbia was taken up, and discussed until recess. The evening session was devoted to the consideration of business from the Committee on Commerce.

Among the bills passed was one to authorize the construction of a bridge at Portland, Oregon; also one to prevent the destruction of fur bearing animals in Alaska, with an amendment reducing the term of the lease of the seal fisheries from 15 to 11 years.

In the House evening session the Legislative Appropriation Bill was considered in a Committee of the Whole.

A bill to allow the New York, Newfoundland and London Telegraph company to land their cable on the shores of the United States was amended so as to give Congress the right to regulate, by general rule, the tariff for messages, passed the Senate on motion of Sherman, who insisted on its amendment.

A bill to allow deputy collectors and assessors the pay of principals when they perform their duties was discussed and a committee of conference appointed. Adjourned.

HOUSE.

Cook, from the Committee on Elections made a report that J. S. Casement was not entitled to a seat as delegate from Wyoming.

The Speaker presented the President's veto of the copper tariff bill, which, after some discussion was passed over the veto, yeas 115, nays 56.

Wilson, of Iowa, and Allison made personal explanations in refutation of newspaper charges.

Lawrence presented the report of the committee on the New York election frauds, with a bill for withdrawing jurisdiction in naturalization cases from certain courts in New York, which passed under a suspension of the rules. The bill deprives the Supreme Court, the Circuit Courts, the Courts of Oyer and Terminer, and the Superior Court of the city of New York of the power to naturalize aliens.

Kerr, from the same committee, presented the minority reports for committees of conference, which were agreed to, on the Constatutional Amendment and the Naval Appropriation bill. Boutwell, Bingham and Logan were appointed a Committee of Conference on the Constitutional amendment.

The House resumed the consideration of the bill to strengthen public credit. After several speeches Schenck moved the previous question. Holman moved to table the bill; lost. The House took a recess.

### GENERAL.

Washington, 23.—An effort is making to discharge the committee from the further consideration of the Goat Island question, and to rush through under a suspension of the rules, an appropriation.

The committee have been discharged by request from the consideration of a resolution witholding several millions in bonds from the Pacific railroads, to secure their proper construction; the subject was referred to the Committee on Railroads. Senators Williams and Terry agree adversely to McGarrahan; Kellogg and Sawyer are favorable. Bayard favors Mac, but declines to sign either report. He wants the case to be returned to the courts for adjudication.

The Senate Committee on Public Lands report favorably to the amendments on Cole's bill for aiding the Oroville and Virginia City railroad.

The House Committee have agreed not to report the Senate bill granting a portion of Goat Island to the Central Pacific Railroad.

Washington.—The prominent friends of Grant propose to erect an equestrian statue of him in the south portico of the Treasury, the model executed by a Boston artist has been received to-day. The material of the statue will be a cannon captured by Grant.

Applications for office the next administration pour into headquarters; no attention is paid to any of them.

San Francisco.—The Pacific mail steamer *China* has arrived. She left Hong Kong, January 10th, with 625 passengers and 25,559 packages of freight. She arrived at Yokohama, January 27th, and left for San Francisco, Feb. 1st. She boarded the P. M. Steamship *Japan*, hence for Yokohama, Feb. 14th; all well. The *China* has experienced westerly winds and moderate weather most of the passage. She left at Yokohama the Ram *Stonewall*, the U. S. Steamers *Ashuelot* and *Monocacy*; also several English, French and Dutch ships of war. The American ships in port were the P. M. Steamer *Herman*, *Costa Rica*, *New York*, *Brewster*, and the bark *Alegore*, loading for New York. S. M. Keeler, a purser in the employ of the P. M. S. Co., died suddenly of apoplexy, on board the steamer *New York*, Jan. 21st; he was buried at Nagasaki.

Governor Haight has received an invitation from Chicago to meet the Governors of other states in that city on the 4th of July, to celebrate the opening of the Pacific Railroad. He will likely decline on account of official duties.

Some of the Chinese in this city are reported to have armed for a struggle to secure the possession of some females who arrived on the steamer to-day. The chief of police has taken measures to prevent a riot. The Chinese companies are anxious to prevent an immoral emigration, but have lately been foiled.

The bullion product of the Nevada mines for '68 is given at $16000,00.

The overland mails continue very irregular.

New York 23.—Bliss and Mastermann publish a statement denying the charge of complicity in a conspiracy against Lopez. They detail their sufferings while imprisoned, showing the most barbarous treatment. They say Washburn did all in his power on their behalf, and condemn Admiral Davis for not demanding an apology instead of receiving them as prisoners.

Washington.—In conversation at the army head quarters to-day, Grant announced his intention to nominate General Schofield for Secretary of War, but he thought it probable that he would decline and return to his position in the army, whereupon he would nominate a civilian for the office. He further remarked that he was opposed to appointing officers in the army and navy to a civil office, and should therefore have a civilian at the head of each department. This statement comes from members of Congress who were present.

The Senate Committee of Conference on the Constitutional Amendment consists of Stewart, Conkling and Edmunds.

Chicago.—A heavy snow storm prevailed yesterday, and last night travel was interrupted East.

Evansville.—A boiler in a saw mill in this city exploded this afternoon with great violence; one man was instantly killed, one dangerously wounded and four others seriously wounded.

Memphis.—The sleet, last night, extended as far South as the Tallahachie river; the fruit will undoubtedly be killed.

Little Rock.—The conservative sentiment is increasing in the Legislature.

New York 24.—G. B. Damar has instituted a suit against Dana, former Assistant Secretary of War, for false arrest and imprisonment.

Secretary Seward declines receiving an Albany military corps, on March 4th, saying, that it is his purpose to enjoy thereafter, as much freedom from political studies and labor as is compatible with the responsibilities he shares with his fellow-citizens.

Washington.—There is strong talk of removing Gorham from the Secretaryship of the Senate; his probable successor is Frank Moone, editor of the Republican *Record*.

Capt. H. G. Rollins, of Nevada, is at Washington. Sargent will support him for Internal Revenue Collector at Sacramento.

Cheeseman denies that he wants any office.

Pascal Coggins, C. B. Porter, and S. W. Kennedy are additional candidates for the San Francisco Postmastership.

Chicago.—The *Tribune's* special says that Grant will appoint Columbus Delano, Commissioner of internal revenue; the nomination has already been tendered and accepted by Delano.

The conference committee on the Diplomatic Appropriation bill have agreed on all the points in dispute, except Butler's amendment on the South American mission, will probably disagree to this, and provide for a Charge d'Affaires instead of resident Ministers in some of the South American States.

The national land bill has gone to a conference committee, whose composition induces a belief that Coburn's amendment will not be carried.

Grant stated yesterday to a Congressman, that Dickey, a Pennsylvanian, would be one of the members of his cabinet.

### FOREIGN.

Madrid.—The press of the country urges a provisional government as necessary to preserve the friendship of the United States.

London.—Baron Lionel de Rothschild a Liberal, has been elected to Parliament from the city of London, in place of Bell, Conservative.

Dublin.—Costello and Warren, Fenian prisoners, have been liberated.

Havana.—Advices from St. Domingo represent the country greatly agitated at the revolutionary pronunciamento. The rebels are threatening Assun; the capture of which would give them an open.

A dispatch from Spain announces the organization of three thousand Catalan volunteers for service in Cuba.

Havana, noon.—The city is quiet; the volunteers are guarding the streets as usual. The agitation of the two preceding days has abated.

The *Preusa* publishes accounts of the situation in the Central Department. The insurgents subsist on the country, and take only the property of the Spanish. The *Preusa* adds that it is useless to indulge in illusions as to the state of affairs in the interior, for the condition of the inhabitants could not be worse.

Toronto.—The snow has fallen four feet deep on the level; the roads to Montreal are entirely blocked.

Havanah.—15,000 insurgents entered the Cagas, burned the archives of the police headquarters and seized the guns, uniforms and equipments of the civil guard, and carried off all the horses they could find at Santa Espiritu. The Government is conscripting all mails over 17.

Havana.—Gen. Dulce has issued a proclamation to the volunteers declaring that he is about to commence a vigorous campaign against the rebels; he advises the volunteers to remain quiet and to obey their superior officers. The citizens were greatly alarmed at the proclamation and intense excitement prevailed, but it partially subsided in the evening. The officers have urged the volunteers to abstain from violent measures, but their influence is not strong, and only the resolute conduct of Gen. Dulce has prevented the commission of disgraceful acts. The insurgents defeated the regular troops at Magajiqua, and captured the town. Many engagements have occurred in the vicinity of Trinidad, with varying results.

Madrid.—The Republicans voted against thanks to the Provisional Government.

Havana.—Sagua Grande is declared to be in a state of siege. A rebel force 400 strong is operating in that jurisdiction. Several plantations have been laid waste and buildings destroyed. The rebels are in the vicinity of Sagua.

Havana.—A dispatch says great excitement exists there relative to the announcement that two iron clads are at Key West.

Dulce's address says that military courts have been established, and their decisions will be carried out.

Three thousand troops leave to-day for the interior. A new export duty will hereafter be levied, to increase the revenue in order to meet the extraordinary expenses of the war.

London.—In the House of Commons, the Solicitor General of has introduced a bill abolishing the university test.

Constantinople.—No battle has yet been fought between Turkey and Persia; hostilities are suspended until the arrival of the Persian ambassador.

And we will sell at rates to suit our former and future patrons.

Our selection of

CHOICE FLOWERS

Is unexcelled in this Territory.

4th WARD,

d78 1m SALT LAKE CITY.

## LOCAL AND OTHER MATTERS.

THEATRICAL.—Last night a good house witnessed the presentation of "The Stage and the World" and the "Handsome Husband," on the occasion of Mr. Graham's benefit. They are both excellent pieces and were tolerably well played, the only drawback being that the last act of the first piece lacked the vim and snap necessary to make it a complete success. In the characters of Kate Robertson and Daniel Dewlap, Miss Lockhart and Mr. Graham found excellent scope for the display of their abilities, and played splendidly. Mr. Hardie as the jealous lover, Mr. Lindsay as the [illegible] and Mr. Margetts as the "twin gosling," are worthy of favorable mention. Mr. Thorne as the [illegible], prejudiced [illegible] aristocrat, played excellently, but used his arms rather too much to be picturesque or graceful.

At the close of the play Mr. Graham, in answer to the vociferous calls of his many friends, appeared before the curtain and "spoke" a very short "piece," thanking the audience [illegible] of appreciation.

The farce of the "Handsome Husband" went off well, and made lots of fun. The "Stage and the World" will be repeated this evening.

PARTY OF THE HEBREW BENEVOLENT SOCIETY.—This party came off last evening; it was [illegible] and gave the utmost satisfaction to the committee and the guests assembled. The supper room was nicely decorated with evergreens; about 180 sat down to supper. The music was excellent and the arrangements for the evening's amusements were complete, and all that could be desired. The committee, on behalf of the Society, desire us to express their thanks to the "Mormon" residents of this city for the aid and co-operation extended in making the party a success, their aid being far greater than that extended by other residents. We are glad to be able to state that, on a rough estimate, the company calculate that $100 were cleared by the party.

EASTERN MAIL.—For about ten days past we have received neither letters nor papers from the East, the non-arrival of mails is owing to heavy snow storms which have blocked the roads and so prevented travel. The blockades have occurred between Cheyenne City and Rollins, and between the latter place and Wasatch; also at Quaking Asp Ridge. Two or three hundred men are at work to-day clearing the road, and it is probable that a train will get through and a mail be in to-morrow.

BENEFIT.—To-morrow, Thursday, evening has been selected for the benefit of Professor Careless, conductor and leader of the Theatrical orchestra. The entertainment will be dramatic and musical, and we may [illegible] excellence has never [illegible] a Salt Lake audience. [illegible] of "The Wonder, or W[illegible] Secret" never before pla[illegible], will be followed b[illegible] the evening's ente[illegible] with the laughable farce of "The Two Polts." In the play Miss Lockhart, supported by the best talent of the company, will appear. The musical interlude will consist of [illegible] from the best authors, in[illegible] grand operatic selection, from Il Trovatore, by the orchestra; an operatic selection from Lucretia Borgia, by Professor [illegible], [illegible] Croxall; besides songs and duets, comic and sentimental, by Mrs. L. Careless, Mr. Dunbar and others. During the evening the orchestra will play, overture [illegible] Beethoven; Claribel waltzes, Naples Quadrille and Eleanor waltzes.

Professor Careless has labored indefatigably in his position, as conductor of the orchestra, and though a very unassuming gentleman, as a musician, he is without an equal in the entire West. We hope, to-morrow evening to see an assembly at the Theatre [illegible] of the merits of the beneficiare.

INFORMATION WANTED of Jacob Harrison, who emigrated from Derby, England to Utah, in 1866. When last heard from he had gone from Salt Lake city to Montana. His sister, Eliza Ann Harrison, who arrived from England last summer is very anxious [illegible] Ogden post office.—[Montana papers please copy.

WELLSVILLE.—Bro. R. Deakin, writing from [illegible] Cache county, says they have had a very pleasant winter, and that the health of the people is excellent. A first-class dramatic association is in operation; they have "no regenerators" in that [illegible] peace [illegible] prevail.

A FIGHT.—Two very respectable gentlemen were brought before Justice Clinton, yesterday, charged with fighting, and were fined in the sums of $10 and $15.

DRUNKS.—John W. Bolwinkle and a Spaniard by the name of Frank Sanches were brought before the Alderman this morning upon a charge of drunkenness, when they were fined in the sums of $5 and $10 each.

[illegible]

[illegible] 1869, after a lingering illness of 48 years, [illegible] of Jesus Christ of Latter-day Saints, in 1840, emigrated to Nauvoo in the year 1842, and in the year 1846, was driven with the saints to Winter Quarters, and in 1852 came with her husband to Utah.

She died firmly believing in the truth of the gospel of Jesus Christ.—Com.

### A NEW "DIXIE" VINICULTURAL CHAMPION.

SALT LAKE CITY,

*Ed. News*:—In your issue of the 11th inst. a new champion in behalf of our "Dixie" grape culturists has suddenly revealed himself. For fifteen years, the name of brother Hemenway has been honorably known to me as a popular nurseryman, but not at all as a vine-dresser. My friend Droubay, of Tooele valley, having entered the list with bro. Bonnelli in behalf of the Burgundy brands, brother Hemenway has boldly drawn his mighty viniculturai sword to break in pieces the impudent French "velocipedes of the North."

Now I will quote the following awful and criminal statements of mine reproduced by my new antagonist in his lengthy correspondence. "I must confess," he says, "that we were taken by surprise by the following, which appeared in brother Bertrand's letter, published in the NEWS of July last:

"I hope and trust that bro. Bonnelli, in Arizona, bro. Dodge, in St. George, and other Swiss grape culturists in our 'Dixie', will succeed in making raisins equal to those of Malaga, and in manufacturing excellent wine, as alcoholic as sherry; but with the most scientific they will never produce anything approaching, in the least degree, any of the aforesaid Burgundy wines. Why? Simply because the climate of their locality is too warm." Again, my antagonist says, "In your paper of September 2nd, brother Bertrand says: It is a fact, indubitable, that Mr. Bonnelli, Mr. W. E. Dodge, of St. George, and several other grape cultivators in our Dixie, will soon succeed in manufacturing a large quantity, of wines, equal, and perhaps superior, to the best brands of Maderia, Malaga, Teneriffe, Sherry, etc.; but I say again, nothing which can compare with the peerless aroma of the first class Burgundy ones. It is an utter impossibility." He also says: "I do affirm that the first class brands of Burgundy, mentioned in my first communication, are, by their unsurpassed aroma, the very best light wines in the world."

To annihilate these "sweeping" statements, bro. Hemenway refers the numerous readers of the NEWS to the report of the committee appointed by the United States Commission at the Universal Exposition of Paris, in 1867, on the culture and products of the vine, which, says he, "is the most valuable publication on the vine I have ever seen painted, and comes from the highest authority in our nation." This report is now in my hands, and I boldly declare that it is an able but a very partial document. After quoting from it to elucidate the difference of national taste between the French jurors and American exhibitors of the Exposition, your correspondent triumphantly exclaims: "From the above quotations, we find that the peerless aroma of the Burgundy wines is fully appreciated only by the French palate, trained to like that only which is negative;" also, "that the first class brands of Burgundy are, by their unsurpassed aroma, the very best light wines in France, but not in the world." Alas! famous Burgundy wines, idols of my heart, you are now fully dethroned by the powerful hand of bro. Hemenway!

The short description of "Clos Vougeot," the richest Burgundy vineyard, given by the American Committee, is too curious to be omitted:—"Here stand little starveling vines, very slender and very low; yet here is the celebrated 'Clos Vougeot,' and this is the hill, and these are the vines that yield a wine rivalling in excellence and value that of Medoc, and to the fortunate proprietor, the *cote d'or* is what it signifies, 'a hillside of gold.'" I wonder if my philosophical friend Droubay, who is well acquainted with the first-class Burgundy vineyards, can discover any feature of "Clos Vougeot" in the above description. I will remark here that the name of *cote d'or*, imperfectly given by the American Committee to the hill forming this celebrated vineyard, belongs to the whole department in which it is situated. The department of "Cote d'or," one of the most populous of Burgundy, contains Nuits, Pomard, Chambertin, Romanee, Morachet, Aloxse, Savigni, Mergeot and other first-class vineyards not mentioned in the report.

Another remark. Why has brother Bonnelli, who is so fond of scientific investigations and quotations, left unsolved my little problem on the Morachet vineyard? I seize the present opportunity to correct a very curious assertion made by himself in a former correspondence. "I have made," says he, "good wine in Switzerland with the white chasselas." I feel as inclined to endorse this statement as to believe that brother George D. Watt obtained the beautiful cocoons of his last crop in feeding the silkworms with cabbage leaves. Every European, ever so little familiar with the grape culture, knows that the white chasselas is an excellent table grape, but unfit for wine making.

After reading the American Commission's report, every impartial man can discover at once that a certain national rivalship arose between the French, German and American jurors or exhibitors of wines at the Exposition of Paris. The display of wines and fermented liquors of all kinds, from various parts of the world, was enormous. France had 800 exhibitors of wines, Prussia and Switzerland 201; the United States, not to mention hundreds of others. [illegible] the [illegible] the wines of the [illegible], including those of California, did not receive much attention. Honorable mention was made of the sparkling wines sent by the Buena Vista Vinicultural Society of Sonoma (California). In order to remedy the disappointment of the United States wine exhibitors, the American Commission appointed a committee to specially examine American wines and make a report. This committee consisted of Mr. Flagg, of New York, Marshall P. Wilder of Boston, and Dr. Jacob Thompson.

Now "Brother Jonathan" is a young promising boy, very smart, full of pride and ambition, anxious to beat the whole world in sericulture, in grape culture, in wine making, in everything. According to his military notions, General Grant is the most accomplished warrior, and the very best soldier the world has ever seen.

In reading carefully the report of the American Committee, I have been struck with the masterly style of its contents, but specially with the great partiality it displays against France. For instance, it is stated that the four millions of acres devoted to grape culture in that country yield annually an average of one billion two hundred millions of gallons. This is, indeed, a large production. Nevertheless only four vineyards are mentioned, namely "Chateau Margaux," "Chateau Lafitte," "Chateau La Tour" in Medoc, and "Clos Vougeot" in Burgundy, but without saying a single word on the merit or demerit of their celebrated brands. How different [illegible] famous German [illegible] most pompous words [illegible] language can command [illegible] to [illegible] without [illegible] if you [illegible] ogy:

"Now, Johannesberg is the most delicate of wine, as it is indeed superlative in every respect. By the kind invitation of the Princess Metternich, the Committee were allowed to taste specimens of the best the castle cellar contained, including some that was twenty-one years old in the cask, and some from a cask that was *par excellence*, called the "Bride of the cellar," and the opinion formed was that the quality of Johannesberg is such that it cannot be described and can be communicated only to the organs of taste, nor can be understood or even imagined, except by those who are so highly favored as to have a taste of it."

I will remark here that this marvellous wine, as well as the best French brands, are produced in cold countries. Now, what is the very best wine in the world? I boldly answer that which commands the highest price. The first class French wines are always bought by the monarchs, princes and [illegible] of Europe, before the vintage.

I here [illegible] a short quotation, which speaks volumes on the value of certain French wines: "Yet Medoc grows wine that often sells for ten dollars a gallon, while that of Beziers sometimes sells for the half of ten cents per gallon."

Medoc is a wine producing district nearly twice as large as Utah Valley, and enjoying about the same climate. Its valuable products are exported to the ends of the earth. Beziers, being situated in the south and in a very rich soil, yields immense quantities of wine for brandy and alcohol.

L. A. BERTRAND.
